// Who we are

Supporting ICT Development In Northeastern Ontario

NEOnet Inc is a regional, non-profit organization, which was established in 1999 with a mandate to facilitate telecommunication service and infrastructure development in northeastern Ontario. NEOnet assists unserved and underserved communities in the North achieve equitable technology and broadband adoption through small business grants, education and broadband advocacy and implementation.

// How we help our region

What We Do

01

Encourage and facilitate between private and public sector partnerships that will result in the betterment of telecommunications infrastructure and ICT-related services in our catchment.

02

Promote regional innovation and ICT development to increase competitiveness of our region's businesses and growing the region's digital economy, to build a stronger and more resilient Northern Ontario.

03

Grow and strengthen the region's workforce by ensuring accessible and equitable access to digital skills training to build the foundations for economic growth, and foster a more competitive ICT environment.
